Duropack AG

Vienna, Austria

October 2005 - December 2005

Working as a trainee in the advertisement and communication department helping design the manual for their new C.I. and maintaining their website.

Baumann Photographer - Assistance

Vienna, Austria

October 2006 - October 2007

Working as the assistant of a photographer in Vienna who is mainly doing stills and architecture. My tasks were retouching, masking and color-correcting the images as well as helping at the scene with lighting, etc...

Interacts GmbH - Fulltime Designer / Flashdeveloper

Vienna, Austria

February 2008 - October 2009

While studying I started to work at a web-agency in Vienna. In the beginning I was trusted with a lot of **CSS development, customizing templates** in the CMS and some smaller tasks using **Flash**.

Later on I got the chance to **create their new identity** and to **design the visuals for their exhibiton stand**.

Lately I **developed the interaction-interface** for a 3-D First-Person browser-game rendered with Adobe's Shockwave player **with Flash** for a in-house project called YPD-Challenge 2010. In addition to that I **designed the challenge's new website** and started to work on the **redesign for checkfelix.com**.

Special Skills

Special Skills

OS

I know how to use either a Mac or machines running Windows. I have to do so because there are tools that aren't available for both platforms.

Programming languages

During my studies I learnt object-oriented programming coding JAVA, C++, C#, Actionscript and PHP. In addition to that I know how to code Javascript and how to use and process different markup-languages like XHTML, CSS and XML.

Software Tools

Principally I know everything to get my work done.

Some are in this list:

- Adobe Photoshop
- Adobe Flash
- WWW
- Adobe Illustrator
- Adobe After Effects
- Max 5
- Adobe InDesign
- Maya 8
- Adobe Premiere /
Apple Final Cut
- Adobe Dreamweaver
- Apple Logic

Languages

German (Mother tongue)

English (fluent in writing and speech)
